In Use For Over 30 Years

What the English call stainless iron and stainless steel are making their way rapidly in the world. We, in America, probably would have de-scribed the materials rustless iron and rustless steel, although those words are less euphonious than the British

It has been some seven years since the processes were invented that ren-der iron products immune from the at-tack of their notorious enemy, oxygen, but as those years were chiefly war Tenant-No? Well, I suppose you'll years the inventions received less recognition from the public than their revolutionary nature warranted.

hold me to your agreement.

Landlord—Agreement! What agree-Stop a moment and think of the nany objects of iron we meet with ally that are seriously harmed, in Tenant-Why when I rented you strength, appearance, or both, by rust. Then realize that if made of stainless steel or iron there would be no red

"The vulgarity of wealthy people is so much more noticeable than that of We have said would be, but "is" would be nearer correct, for every day the use of these materials is spreading, one of its latest uses being for the manufacture of the hoods of automo-biles and with entire auto bodies to

All the fittings about a motor car can now be made of stainless iron where in the past they were of nickel plating. Stainless steel has, it appears, quite revolutionized the cutlery trade of Sheffield and of late it has grown distinctly sporty from its use in the manufacture of golf clubs. It has been taken into the kitchen for the manu-facture of gas ranges and cooking uten-sils and elsewhere in the home for fire grates, fenders, coal buckets and many

Two other very similar yet dissimilar e made up into door mats and into ng mattresses. And in the field of use here and now we wish to sugrest the metal for plane wires in this an instrument has been ruined before its natural time by the rusting of its strings.

Another employment of stainless iron is for shop signs and doorplates and the railroads offer an aimost limitless field for the substitution of the oxygen-resistant metal for those parts, constant

sted with ferrous oxyde. The whole subject of stainless iron one that leads to interesting specu which doubtless within a few years will have found itself throughout the world .- New Orleans Times-Picayune.

make red, rough, pimply skins, clearer, fresher, and more attractive. Use them regularly, for a few days and see how your complexion improves.

guard of 83,000 members of their sect who want to come from their present homes in South Russia to the United States, have been admitted to this country on giving bond in \$500 each to assure our government they will not become public charges.

Anybody who knows the Mennonites will smile when he hears of this. The Mennonites are about the last per-

The Mennonites are about the last persons in the world liable to become public charges. They are famous farmers, industrious, sober, independent. They are not progressive; old ways are good enough for them. But wherever they plant themselves they prosper through toil.

What makes trouble for the Mennonites and their neighbors of other religious sects is their attitude toward war. They are bacifists by conviction,

wall and the fugitives clambered down a steep embankment and escaped, completing the most daring jail delivery in the history of Mount Joy. The guard was summoned, but search failed to reveal a trace of the four women.

Incorrigible.

Irate father—I shall no longer put up with your goings on.

Incorrigion wall and the fugitives clambered down in time of war. Mothers and fathers whose sons are giving their lives in defense of their country do not look with patience on sturdy men enjoying the protection of the national institutions but never offering their blood to sustain them. Thus it was in Canada, where Mennonites, welcomed as undesirable war, were denounced as undesirable derstanding of their attitude toward derstanding of their attitude toward defense of their country do not look whose sons are giving their lives in the homes they had created to abandon the homes they had created to abando
